

IntercompWeigh™ Software

Complete Software Program to Manage Weight Data

Manage the Weighing Process and Create Comprehensive Reports.

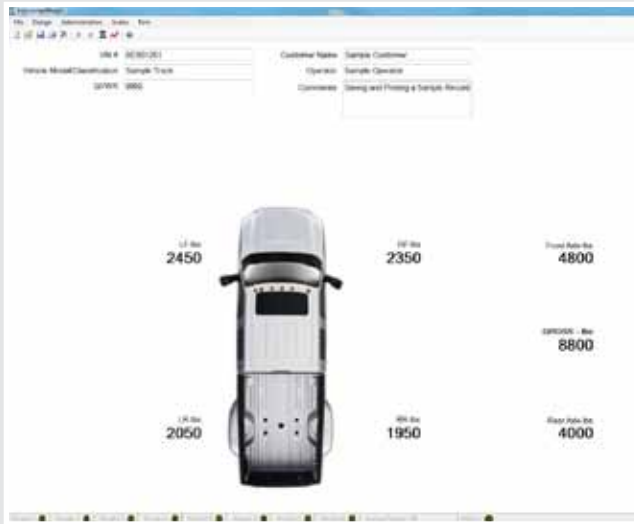

IntercompWeigh™ Software communicates directly with Intercomp's Digital Wheel Load Scales, Crane, & Tension Link Scales, Pallet Truck Scales and Indicators. Users can manage any weighing process, view scale data, customize layouts and generate reports in one, easy-to-use program.

Set up any scale configuration for use in any weighing operation to keep track of item inventories, create procedures to maintain processes or generate customized, detailed records for future analysis. Combine with Intercomp's wireless node to communicate directly with scales without cables.

Intercomp
advanced weighing technology... by any measure

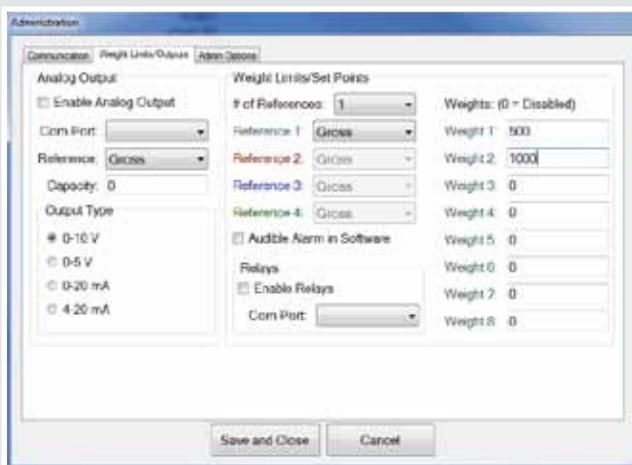

IntercompWeigh™ Software
